MALOO GEMS & JEWELLERY LIMITED

SCHEDULE 'P' OF NOTES ON ACCOUNTS ANNEXED TO & FORMING PART OF BALANCE SHEET AS ON 31/03/2011

1. SIGNIFICANT ACCOUNTING POLICIES

a) Basis of preparation of financial statements

The financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) as a going concern, under the historical cost convention on the accrual basis. GAAP comprises mandatory accounting standards as prescribed by the Companies (Accounting Standards) Rules, 2006 notified by the Central Government and the provisions of Section 211(3C) of the Companies Act, 1956. Accounting policies have been consistently applied from one period to the other except otherwise stated.

b) Use of estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period. Examples of such estimates include provisions for doubtful debts, income taxes and the useful lives of fixed assets and intangible assets.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made.

c) Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

d) Employee benefits

Expenses and liabilities in respect of employee benefits are recorded in accordance with the Accounting Standard 15 "Employee Benefits".

e) Taxation

Tax expense comprises current tax (MAT), deferred tax.

Provision for current tax is ascertained on the basis of the taxable income computed in accordance with the provisions of the Income-tax Act, 1961.

Deferred Tax reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets

relating to timing differences are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

f) Provisions and contingencies

The Company creates a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may be, but probably will not, require an outflow of resources. These will not be charged to the Profit & Loss Account as it is not probable that future events will confirm that an asset has been impaired or a liability has been incurred as at the balance sheet date. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Notes to accounts:

2. Fixed Assets :

Fixed Assets are carried at cost of acquisition or construction including incidental expenses related to acquisition and installation on concerned assets, less accumulated depreciation and amortization.
